

Photoshop for the Latent Print Examiner

George Reis - Imaging Forensics

4 Day Workshop • Jacksonville, FL • January 6 - 9, 2014

About the Workshop:

This four-day hands-on workshop is appropriate for Photoshop users of all levels who use this application for work with latent fingerprint examination. It covers information, techniques, and includes exercises that can be learned by beginners and can also be challenging for experienced Photoshop users.

Topics include digital imaging theory, court issues, photographing and scanning latent prints, enhancement, on-screen comparisons, and creating court charts. The last day focuses on workflow, and each examiner is given several cases to work, and then to present one case in a moot court environment.

The participant will learn the following concepts, techniques, and skills:

- Basic Digital Imaging Theory
- Appropriate File Formats in Forensic Digital Imaging
- Best Practices for a Forensic Digital Imaging Workflow
- Court Issues in Forensic Digital Imaging
- Sizing Images 1:1
- Latent Print Enhancement
- On-Screen Comparison
- Creating Court Charts
- Practical Application of the Digital Imaging Workflow

This workshop is presented as a combination of lectures, discussions, and hands-on exercises.

About the Location:

This workshop is being held at the Florida Department of Law Enforcement.

Florida Department of Law Enforcement
921 N. Davis St., Bldg E
Jacksonville, FL 32209

Equipment Needs:

Students will need a laptop computer with a working copy of Adobe Photoshop CS6 or CC. The trial version is fine, but should not be installed until three weeks prior to the workshop.

Other requirements will be sent to each registrant approximately three weeks prior to class.

Travel and Hotel Information:

The Jacksonville International Airport is served by the following airlines:

About the Instructor:

George Reis is the owner of Imaging Forensics, providing training, consulting, and litigation support in photography, photographic analysis, and video analysis. He worked for the Newport Beach, CA Police Department for 15 years as a forensic photographer, latent print examiner and crime scene investigator. He began using digital imaging in forensics in 1992 and over 3,000 people have attended his training, including personnel from the Secret Service, FBI, US Army Crime Lab, and state and local agencies. Reis is certified by the International Association for Identification in Forensic Photography and Imaging, and in Forensic Video Analysis. He is a member of the Forensic Photography Certification Board, and on the Editorial Review Board for the Journal of Forensic Identification.
